

RAMSEY COUNTY GIS USER GROUP

An alliance of communities sharing Geographical Information Systems

Meeting Minutes

2:00 PM- 4:00 PM June 6, 2013

Shoreview City Hall, 4600 Victoria Street North

1. Call to Order at 2:03pm and Introductions of attendees

Mark Andrlle, City of New Brighton
Chad Bergo, City of Maplewood
Matt Koukol, Ramsey County
Jolinda Stapleton, City of Roseville
Deb Jones, Falcon Heights
Joel Koepp, Roseville-North St. Paul
Nat Chowen, Ramsey County
Nate Zwonitzer, CRWD

Brian Jastram, MWMO
Curt Peterson, Ramsey County
Beza Hunegnaw, Ramsey County
Brian Corcoran, VIAWMO
Ger Pha, St Paul
Craig Hinzman, Ramsey County
Matt Koukol, Ramsey County

2. Approval of the May 2013 minutes –approved by Consensus.

3. Address Point Demo – Matt Koukol

Matt demonstrated the address point editing application that Roseville, North St Paul and Falcon Heights are using right now. This first version, created by MetroGIS, has been out for about a year for Ramsey County entities to test and a second version is currently being developed. This is strictly an input tool that is running as a feature service to let the addressing authorities manage the address data. This will allow emergency management to have great access to more reliable data in the future.

4. Ramsey County Data Updates – Curt Peterson

Spatial adjustments are ongoing with the use of the interns and they are looking for areas of need. Craig Hinzman told us that the interns have worked a total of 750 hours so far and have adjusted 1,700 parcels. Current funding will last through September but the User Group had asked for a 6 month status update to proceed with final payment of the approved funding for the project. Ramsey County will provide the User Group with an invoice for the payment in the near future.

5. 2013 Aerial Update – Matt Koukol

Matt said that the 2013 spring flight did not happen because the flight window was so small due to the cold weather and leaf on. Ramsey County wanted a High Quality result since we have dedicated a lot of funds toward the impervious surface layer and the vendor has agreed to honor the same pricing for a 2014 flight. Pictometry might be pushed to 2015 to avoid having two sets of 2014 aerials.

6. GIS/LIS User Group Booth – Chad Bergo

Chad announced that User Groups will be given a free booth at the GIS/LIS Conference this year if we wanted to display some projects that are available.

7. Community Announcements

8. Adjournment – 3:15pm

Chair

Mark Andrlle
